

A full-page background image showing a construction site at sunset. In the foreground, a worker wearing a yellow hard hat and a high-visibility vest is seen from the back, holding a blue pipe. In the background, another worker is visible on a metal scaffold, also holding a blue pipe. The sky is filled with clouds, and the sun is low on the horizon, creating a warm, golden glow. The company logo is overlaid in the center.

EVO®8 Mid Peak Wheel Ratchet Vented

The Mk®8 Evolution® safety helmet was the first industrial hard hat in the world to meet and exceed the far tougher head protection standard EN 14052 - this was the biggest advance in industrial head protection in over 45 years. The EVO®8 safety helmet is designed for today's highest risk environments where high impact / side-impact situations are a concern such as Construction, Mining, Tunnelling, Demolition, Oil and Gas, Offshore Marine, Refinery and Petrochemical, High-Pressure Jetting and certain Emergency Services. EN 14052 is specified into EN 1789 as a mandatory requirement for each crew member for type B & C road ambulances.

ESSAFE GE 1548

Can be stored and transported in their original cartons at ambient temperature (0°C to + 30°C) May be stored in the dark for up to 3 years. Do not store in direct/high heat or sunlight as this may distort the shell The Essafe helmet has an in-use life of up to 3 years Excessive wear and tear can considerably reduce the lifespan of the product

UVEX PHEOS B SAFETY HELMET

Penetration resistance against sharp and pointed objects, Chin strap opening between 150 and 250N, Vertical shock absorption. Additional accessoires, Safety earmuffs and visors (Euroslots 30 mm)

DYNAMO 397 KAYASAFETY

Visor free design for more comfortable vision Absorbs shock with outer shell deformation Perfectly fits on head thanks to 4-point textile suspension system Up/down adjustment for ear area and adjustable/removable chin band Special slots and clips for attaching headlight, headphones and visor

UVEX PHEOS CX2 SPECTACLES

Optimum eye protection in all situations: The soft component connected directly with the lens offers reliable protection against dust and water. The innovative uvex X-tended Eyeshield adapts perfectly to the wearer's face – for excellent wearer comfort and 100 % protection.

HONEYWELL SVP400 SERIES

Polycarbonate lens available with K&N coating: anti-fog and/or anti-scratch 9-base wraparound lens for full protection and better field vision. Comfort improved by rubber, dual-material, non-slip temple tips. Cushioned nose bridge. U6 grade-level lens filters > 99.9% UVB/UVA for far and near UV transmittance. Available in Clear and Gray frames, and 4 lens tints including Indoor/Outdoor and Silver Mirror.

3M™ OX™ SAFETY GLASSES

For workers with prescription glasses, 3M™ OX™ Protective Eyewear offers an extended field of vision with its wide profile. Its seamless lens with built-in sideshields secures an uninterrupted sight range with over-the-glass coverage. OX protective eyewear increases comfort and delivers a flexible, polycarbonate construction with over-the-glass coverage.

DELTA PLUS CLEAR SAFETY GOGGLES

Has a flexible nylon frame and an adjustable strap that tilts to enhance comfort and better allow for long wear times. Polycarbonate lens provides strong resistance to impact, is scratch resistant and will block UV light. Suitable to be worn over glasses and with disposable respiratory masks.

WORK GLOVES (HEAVY)

These gloves provide the perfect balance between comfort, dexterity and protection. The lycra content and micro foam nitrile coating in the lining make the glove much softer and more flexible. In this way, it provides a much superior grip and comfortable movement without squeezing your hands or making them sweat. It is resistant to wear and tear for a long time. It is REACH compliant.

IMPACT GLOVES

Tough jobs call for tough gloves. New Rig Dog gloves are made to keep your team safe and in control when handling hazardous oily surfaces. They provide enhanced impact protection, they meet the EN388:2016 and have been developed to achieve the highest level of impact protection (level 3) from ANSI/ISEA 138 to be published in 2019. Special additional layers provide F ISO cut level resistance, guard against abrasions and enhance grip. Made to be highly breathable and reduce hand fatigue, so they are comfortable to wear during long shifts.

WORK GLOVES

Gloves grip the hand better and provide comfortable use with its cotton-lined texture, knit wristband and special mold.

WELDING GLOVES

It is used in welding industries in many industries, in the transportation and cutting of metal parts, in assembly and coating processes, in heavy metal processes, in injection molds, in the use of cold and hot parts, in repair, mining, freight transportation and in the iron and steel industry. It is suitable for use in deburring and hot metal processes in the automotive and iron and steel industries, and for working with sharp-edged sheets and metals.

FULL FACE MASKS

Dräger X-plore 5500 full face masks are designed on the basis of the proven and reliable technology of Panorama Nova. The double-layer face seal with triple sealing action ensures reliable protection and a secure, leak-free seal regardless of your face shape.

KN95 + FILTER

For single shift use respirators (NR), the clogging test is optional. For reusable respirators this test is mandatory. The respirators are loaded with very high amount of Dolomite dust which will tend to clog the filter. After loading with the required amount of dust, the breathing resistance of the respirators shall not exceed the following limits.

HALF MASKS

Engineered as a lightweight, durably soft half mask, HM500 ensures better comfort and convenience – particularly for extended wear.

PARTICLE MASKS

FFP3 breathing protection preformed mask. APF 20
Exhalation valve. Ergonomic fit
Labelled for use with high levels of dust exposure (D)
Comfortable, four-point headband attachment
